BUILDING COMMITTEE--  
ANY PROGRESS?

Yes--The Building Committee has a recommendation ready for the membership!

The method the Committee will use to advise you of its recommendation is to hold a series of cottage meetings. You should all receive invitations to one of these meetings in the near future. At this meeting, our recommendation will be explained in detail. Alternate solutions that were considered by the Committee will also be discussed.

The Building Committee arrived at its recommendation by fulfilling goals that were established at its initial meetings. Our first goal was to determine the facility needs of Concordia. You had the opportunity to participate through the needs survey you were asked to fill out. Our second goal was to examine every possible method of meeting these needs. Our third goal was to select the method that would best conserve the money and talent resources of our congregation over the long run, and that would be our recommendation. The recommendation of the Building Committee may sound like a rather large undertaking, but we feel we can show you how it best fulfills our third goal.

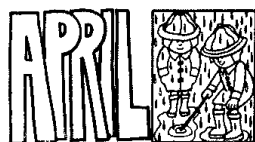

Our fourth goal is to have every member of Concordia prayerfully consider the Committee's recommendation and then pledge all they can give in money, time, or talent, but in no case pledge more than they can deliver. If we pledge more than we can deliver, the effect on Concordia's ministry will be negative and divisive. Will pledging less than we can give have a negative effect on us individually as well as collectively? All pledges will be handled confidentially by the Financial Secretary. These pledges are in addition to the regular budget pledge.

Our final goal is to convert your pledges into a Building Program that will meet the needs of Concordia. Your honest criticism, support, patience, and prayers will be needed for us to achieve this final goal.

If you are not invited to a cottage meeting or cannot attend the one you are invited to, please contact me or Pastor Schmoock. Please make every effort to attend one of the cottage meetings. Everyone's input is needed so that the Building Committee can continue to progress toward its final goal.
